## WIENER KESSELBRÜEDER

Three friends decided to embrace a unique way in which they wanted to express their love for their city of Vienna.

Their basic principle confidently and clearly states „We are the Wiener Kesselbrüder“!

After years of experimenting in the distillery, the friends created what is now known as the „Wien Gin“ characterized by its flavourful elderflower, and the excellent aroma of the fruits, which brings the juniperberry taste to a whole different level of deliciousness!
